One chip, incredibly real

Our 4K HDR Processor, fueled by Object-based HDR, unveils enhanced depth, textures, and natural colors. Experience pure hues at higher brightness levels, yielding astonishingly realistic pictures.

Intrigued by the wonders of webOS?

Prepare to unlock the gateway to a captivating world of entertainment. Discover the multitude of possibilities that await you with your TELEFUNKEN smart TV, effortlessly streaming your desired content, conducting information searches, and delving into so much more.

Experience the pinnacle of Apple integration.

Embrace the best that Apple has to offer as your TV becomes compatible with AirPlay 2, allowing you to effortlessly stream entertainment from your Apple devices, including the extensive Dolby Vision™ content library. Moreover, leverage the power of HomeKit to seamlessly configure, personalize, and manage your smart home using your Apple devices. The perfect fusion of convenience and innovation awaits.

Built-in video decoder

Unlock a world of expanded 4K content

Get ready to indulge in a diverse array of entertainment options as our decoder supports HEVC, AV1, and VP9 codecs. Experience the thrill of streaming 4K YouTube videos or enjoying 4K content from USB storage devices and streaming services. Prepare to elevate your viewing experience to new heights.
